

**UNIT I**

<b>Chapter 1 : Basics of Maintenance and Repairs</b>	<b>1-1 to 1-18</b>
<b>1.1 Introduction</b> .....	<b>1-1</b>
<b>1.2 Maintenance</b> .....	<b>1-2</b>
1.2.1 Classification of Maintenance .....	1-2
<b>1.3 Common Terms</b> .....	<b>1-6</b>
1.3.1 Repair .....	1-6
1.3.2 Retrofitting .....	1-6
1.3.3 Re-strengthening .....	1-7
1.3.4 Rehabilitation .....	1-8
1.3.5 Restoration .....	1-8
<b>1.4 Necessity of Maintenance and Repairs</b> .....	<b>1-8</b>
<b>1.5 Objectives of Maintenance</b> .....	<b>1-9</b>
<b>1.6 Importance of Maintenance and Repair</b> .....	<b>1-9</b>
<b>1.7 Factors Influencing the Maintenance and Repairs</b> .....	<b>1-10</b>
<b>1.8 Advantages and Disadvantages of Maintenance and Repairs</b> .....	<b>1-11</b>
1.8.1 Advantages .....	1-11
1.8.2 Disadvantages .....	1-12
<b>1.9 Approach of Effective Management for Maintenance and Repairs</b> .....	<b>1-12</b>
<b>1.10 Periodical Maintenance</b> .....	<b>1-13</b>
1.10.1 Maintenance Manual .....	1-14
<b>1.11 Pre and Post Monsoon Maintenance</b> .....	<b>1-15</b>
1.11.1 Pre-monsoon Maintenance .....	1-16
1.11.2 Post-monsoon Maintenance .....	1-17

**UNIT II**

<b>Chapter 2 : Causes and Detection of Damages</b>	<b>2-1 to 2-34</b>
<b>2.1 Introduction</b> .....	<b>2-1</b>
<b>2.2 Causes of Damages</b> .....	<b>2-2</b>
2.2.1 Distress .....	2-2
2.2.2 Earthquake .....	2-3
2.2.3 Wind .....	2-3

2.2.4	Flood .....	2-4
2.2.5	Dampness.....	2-4
2.2.6	Corrosion.....	2-5
2.2.7	Fire .....	2-6
2.2.8	Dilapidation.....	2-6
2.2.9	Termite .....	2-7
<b>2.3</b>	<b>Systematic Approach of Damage Detection.....</b>	<b>2-7</b>
2.3.1	Preliminary Investigation.....	2-8
2.3.2	Physical Inspection.....	2-8
2.3.3	Material Testing.....	2-9
2.3.4	Non-destructive Test.....	2-9
2.3.5	Detailed Investigation.....	2-10
2.3.6	Study of Available Documents.....	2-10
2.3.7	Estimation of Actual Loads and Environmental Effects.....	2-11
2.3.8	Errors in Design and Construction.....	2-11
2.3.9	Retrospective Analysis.....	2-11
2.3.10	Strengthening Requirements.....	2-12
2.3.11	Relevant Approaches to Repair.....	2-12
<b>2.4</b>	<b>Various Aspects of Visual Observations for Detection of Damages.....</b>	<b>2-13</b>
<b>2.5</b>	<b>Tests on Damaged Structure.....</b>	<b>2-14</b>
2.5.1	Non-destructive Test.....	2-15
2.5.2	Various Non-destructive Testing Methods.....	2-16

**UNIT III**

<b>Chapter 3 : Materials for Maintenance and Repairs</b>	<b>3-1 to 3-22</b>	
<b>3.1</b>	<b>Factors Influencing the Material Selection.....</b>	<b>3-2</b>
<b>3.2</b>	<b>Anti Corrosion Coating Materials.....</b>	<b>3-4</b>
3.2.1	Cement Slurry Mortar.....	3-5
3.2.2	Polymer Modified Cement Slurry.....	3-5
3.2.3	Epoxy Zinc.....	3-5
<b>3.3</b>	<b>Adhesive Materials.....</b>	<b>3-5</b>
3.3.1	Solvent Free Adhesive.....	3-6
3.3.2	Epoxy Adhesive.....	3-6

3.3.3	Polyester Adhesive.....	3-7
3.3.4	Acrylic Adhesive.....	3-7
3.3.5	Water Borne Adhesive .....	3-8
3.3.6	Polyvinyl Acetate .....	3-8
3.3.7	Vinyl Acetate Co-polymer .....	3-8
<b>3.4</b>	<b>Mortar Repair Materials .....</b>	<b>3-8</b>
3.4.1	Cementitious Mortar .....	3-9
3.4.2	Polymer Modified Cementitious Mortar .....	3-9
3.4.3	Resin Mortar .....	3-10
<b>3.5</b>	<b>Joint Sealant Materials.....</b>	<b>3-10</b>
3.5.1	Oleo Resinous Mastic .....	3-11
3.5.2	Bitumen or Rubber based Sealant .....	3-11
3.5.3	Acrylic Resin Sealant.....	3-11
<b>3.6</b>	<b>Grout Materials .....</b>	<b>3-12</b>
3.6.1	Cement Grout.....	3-12
3.6.2	Cement Sand Grout .....	3-12
3.6.3	Cement Sand Grout with Additives .....	3-12
3.6.4	Polymer Modified Cement Grout.....	3-13
3.6.5	Epoxy Grout.....	3-13
<b>3.7</b>	<b>Waterproofing Roof Materials.....</b>	<b>3-13</b>
3.7.1	Polyisobutylene (PIP/PIB) Sheet .....	3-14
3.7.2	Glass Fiber Reinforced Plastic .....	3-14
3.7.3	Bitumen and Bituminous Emulsion .....	3-14
3.7.4	Latex Cement Coating.....	3-15
<b>3.8</b>	<b>Surface Coating Materials for Concrete Protection .....</b>	<b>3-16</b>
3.8.1	Bituminous Cutbacks .....	3-17
3.8.2	Chlorinated Rubber Coating.....	3-17
3.8.3	Vinyl Coatings.....	3-17
3.8.4	Epoxy Coating.....	3-18
3.8.5	Coal Tar Epoxy .....	3-18
<b>3.9</b>	<b>Additional Repairing Materials.....</b>	<b>3-18</b>
3.9.1	Plastic or Aluminium Nipples .....	3-19
3.9.2	Polyester Putty.....	3-19

3.9.3	1:3 Cement Sand Mortar.....	3-19
3.9.4	Galvanized Steel Wire Fabrics .....	3-20
3.9.5	Clamping Rods .....	3-21

## UNIT IV

<b>Chapter 4 : I Maintenance and Repair Methods for Masonry</b>	<b>4-1 to 4-31</b>
<b>4.1 Causes of Wall Cracks.....</b>	<b>4-1</b>
4.1.1 Cracks in Wall Due to Bulging of Wall.....	4-2
4.1.2 Cracks in Wall Due to Shrinkage.....	4-2
4.1.3 Cracks in Wall Due to Thermal Movement .....	4-3
4.1.4 Cracks Due to Foundation Movement and Settlement of Soil (Shear Cracks).....	4-5
4.1.5 Cracks Due to Growth of Vegetation.....	4-5
<b>4.2 Probable Crack Location Such as Junction of Main and Cross Wall, Junction of RCC Column and Wall, Junction of Slab and Wall, Cracks in Masonry Joints.....</b>	<b>4-7</b>
4.2.1 Cracks in External and Internal Walls of Load-Bearing and Non-Load Bearing Structures.....	4-7
4.2.1.1 Crack in Non-Load Bearing Wall-Cladding and Cross-Walls of Framed Structure.....	4-7
4.2.1.2 Crack in Partition Walls in Load-Bearing Structures.....	4-7
4.2.2 Vertical Cracks at Junction of R.C.C. Column and Wall Masonry.....	4-8
4.2.3 Horizontal Crack at the Junction of Roof Slab and Masonry Wall Support.....	4-8
4.2.4 Cracks in Masonry Joints.....	4-9
<b>4.3 Stages of Repairs .....</b>	<b>4-9</b>
4.3.1 Surface Preparation.....	4-10
4.3.2 Fixing of Suitable Formwork.....	4-10
4.3.3 Bonding / Passivating Coat .....	4-10
4.3.4 Repair Application.....	4-10
<b>4.4 Repair Techniques: Patch Spalling Replacement or Delaminating and Epoxy Bonded Mortar .....</b>	<b>4-12</b>
4.4.1 Patch Spalling Replacement.....	4-12
4.4.2 Epoxy Bonded Mortar.....	4-12
<b>4.5 Repairing Methods for Minor and Medium Cracks Include Epoxy Injection, Grooving and Sealing, Shotcrete, Stitching, Grouting and Guniting .....</b>	<b>4-13</b>
4.5.1 Epoxy Injection .....	4-14
4.5.2 Grooving and Sealing .....	4-14
4.5.3 Shotcreting / Guniting Method.....	4-15

4.5.4	Stitching Method .....	4-15
4.5.5	Grouting .....	4-16
<b>4.6</b>	<b>Repairing Methods for Major Cracks and Damaged Concrete .....</b>	<b>4-16</b>
<b>4.7</b>	<b>Dampness in Walls: Causes, Effects, Remedies .....</b>	<b>4-18</b>
4.7.1	Causes .....	4-18
4.7.2	Effects .....	4-19
4.7.3	Remedies .....	4-19
4.7.3.1	Temporary Remedies for Internal Walls .....	4-20
4.7.3.2	Temporary Remedies for External Walls .....	4-20
4.7.3.3	Permanent Remedies .....	4-20
4.7.3.4	Damp proof course and its repairs .....	4-21
<b>4.8</b>	<b>Foundation Settlement : Causes, Remedies, Improvement Techniques .....</b>	<b>4-25</b>
4.8.1	Causes of Foundation Settlement .....	4-25
4.8.2	Made-up Soil and Improvement Techniques .....	4-26
4.8.2.1	Improvement of Soft Soil by Compaction .....	4-26
4.8.2.2	Improvement of Soft Soil by Stone Columns .....	4-27
4.8.2.3	Improvement of Soft Soil by Grouting .....	4-27
4.8.2.4	Improvement of Soft Soil by Sand Piles .....	4-29
4.8.2.5	Improvement of Soft Soil by Increasing Depth of Foundation .....	4-30

## UNIT V

### **Chapter 5 : Maintenance and Repair Methods for RCC 5-1 to 5-23**

<b>5.1</b>	<b>Probable Location of Cracks in RCC Elements, Various Causes of RCC Failure .....</b>	<b>5-2</b>
<b>5.2</b>	<b>Causes of Dampness in Roof Slab and its Repair Techniques Such as Mud Phuska .....</b> <b>with Brick Tile Topping, Lime Concrete Terracing, Ferro-Cement Topping and .....</b> <b>Brickbat Coba .....</b>	<b>5-4</b>
5.2.1	Mudphuska with Brick Tile Treatment .....	5-5
5.2.2	Lime Dhar Terrace or Lime Concrete Terracing .....	5-6
5.2.3	Ferrocement for Water Proofing .....	5-6
5.2.4	Brick-bat Coba .....	5-7
<b>5.3</b>	<b>Repair Methods for Cracks in RCC Structures Such as Epoxy Injection, Grooving and .....</b> <b>Sealing, Stitching, Rebaring, Grouting, Spalling and Replacement, Jacketing, .....</b> <b>Shotcrete and Gunitting .....</b>	<b>5-8</b>
5.3.1	Epoxy Injection .....	5-8

5.3.2	Grooving and Sealing .....	5-9
5.3.3	Stitching .....	5-9
5.3.4	Rebaring.....	5-12
5.3.5	Grouting .....	5-13
5.3.6	Spalling and Replacement .....	5-14
5.3.7	Jacketing.....	5-15
5.3.8	Shotcrete and Gunitting.....	5-17
<b>5.4</b>	<b>Repair of Corroded RCC Element : Exposing and Undercutting Rebar, Cleaning Reinforcing Steel, Compensating Reinforcement and Protective Coating .....</b>	<b>5-18</b>
5.4.1	Exposing and Undercutting Rebar.....	5-19
5.4.2	Cleaning Reinforcing Steel.....	5-19
5.4.3	Compensating Reinforcement .....	5-19
5.4.4	Surface Conditioning of Concrete.....	5-20
<b>5.5</b>	<b>Repair Methods for Honeycomb and Larger Voids.....</b>	<b>5-20</b>
5.5.1	Poured concrete .....	5-21
5.5.2	Replaced concrete .....	5-21
5.5.3	Sealing of cracks .....	5-21
5.5.3	Sealing of cracks .....	5-22

**UNIT VI**

<b>Chapter 6 : Structural Audit and Budget</b>	<b>6-1 to 6-33</b>	
<b>6.1</b>	<b>Necessity and Importance of Structural Audit and Budget Estimation.....</b>	<b>6-1</b>
6.1.1	Necessity and Importance of Structural Audit.....	6-1
6.1.2	Necessity and Importance of Budget Estimation.....	6-2
<b>6.2</b>	<b>Distress Survey, Detailed Inspection and Recommendations for Budget Estimation ....</b>	<b>6-3</b>
6.2.1	Distress Survey .....	6-3
6.2.2	Detailed inspection .....	6-3
6.2.3	Recommendations for Budget Estimation .....	6-4
<b>6.3</b>	<b>Steps involved in Structural Audit and Budget Estimation .....</b>	<b>6-5</b>
6.3.1	Steps involved in Structural Audit.....	6-5
6.3.2	Steps involved in Budget Estimation.....	6-9
<b>6.4</b>	<b>Formats Preparation for Structural Audit .....</b>	<b>6-10</b>
<b>6.5</b>	<b>Overview on Rules and Regulation of Structural Audit and Budget Estimation.....</b>	<b>6-20</b>
