

---

<b>Chapter 1 : Mathematical Modeling and Engineering Problem Solving</b>	<b>1-1 to 1-8</b>
1.1 Introduction .....	1-1
✓ <b>Syllabus Topic : A Simple mathematical Model</b> .....	1-1
1.2 A Simple Mathematical Model .....	1-1
1.2.1 Newton's Second Law of Motion .....	1-2
1.2.2 Falling Parachutist Problem.....	1-3
✓ <b>Syllabus Topic : Conservation Laws and Engineering Problem</b> .....	1-6
1.3 Conservation Laws and Engineering Problems .....	1-6
1.4 University Question and Answer .....	1-8
<b>Chapter 2 : Approximations and Round-Off Errors</b>	<b>2-1 to 2-12</b>
2.1 Introduction .....	2-1
✓ <b>Syllabus Topic : Significant Figures</b> .....	2-1
2.2 Significant Figures .....	2-1
✓ <b>Syllabus Topic : Accuracy and Precision</b> .....	2-2
2.3 Accuracy and Precision .....	2-2
✓ <b>Syllabus Topic : Error Definations</b> .....	2-3
2.4 Error Definitions .....	2-3
✓ <b>Syllabus Topic : Round-off Errors</b> .....	2-4
2.5 Round-Off Errors .....	2-4
2.5.1 Floating Point representation .....	2-7
2.5.2 Errors in Floating Point Arithmetic .....	2-8
2.5.3 Errors in Integer Arithmetic.....	2-9
2.6 Machine Epsilon.....	2-9
2.7 University Questions and Answers .....	2-11
<b>Chapter 3 : Truncation Errors and the Taylor Series</b>	<b>3-1 to 3-12</b>
3.1 Introduction .....	3-1
3.2 Truncation Error .....	3-1
✓ <b>Syllabus Topic : The Taylor Series</b> .....	3-1
3.3 The Taylor Series .....	3-1
✓ <b>Syllabus Topic : Error Propagation</b> .....	3-4
3.4 Error Propagation .....	3-4
3.4.1 Arithmetic Operations with Normalized Floating Point Numbers .....	3-4
3.4.2 Functions of More than One Variable .....	3-7
✓ <b>Syllabus Topic : Total Numerical Errors</b> .....	3-9
3.5 Total Numerical Error .....	3-9
3.6 Blunders .....	3-10
✓ <b>Syllabus Topic : Formulation Errors and Data Uncertainty</b> .....	3-10
3.7 Formulation Errors and Data Uncertainty.....	3-10

---

3.8	University Questions and Answers .....	3-11
<b>Chapter 4 : Solutions of Algebraic and Transcendental Equations</b>		<b>4-1 to 4-27</b>
4.1	Introduction .....	4-1
4.2	Algebraic and Transcendental Equation .....	4-1
4.3	Intermediate Value Property of Continuous Functions.....	4-2
✓	<b>Syllabus Topic : The Bisection Method</b> .....	4-2
4.4	Bisection Method .....	4-2
✓	<b>Syllabus Topic : The Regula-falsi Method</b> .....	4-8
4.5	Regula-Falsi (False Position) Method.....	4-8
✓	<b>Syllabus Topic : The Newton-Raphson Method</b> .....	4-15
4.6	Newton-Raphson Method .....	4-15
✓	<b>Syllabus Topic : The Secant Method</b> .....	4-22
4.7	The Secant Method.....	4-22
4.8	University Questions and Answers .....	4-25
<b>Chapter 5 : Interpolation</b>		<b>5-1 to 5-28</b>
5.1	Introduction .....	5-1
5.2	Finite Differences .....	5-1
✓	<b>Syllabus Topic : Forward Difference</b> .....	5-1
5.3	Forward Difference .....	5-1
	5.3.1 Forward difference operator .....	5-2
✓	<b>Syllabus Topic : Backward Difference</b> .....	5-2
5.4	Backward Difference.....	5-2
	5.4.1 Backward Difference Operator .....	5-2
5.5	Shift Operator E .....	5-3
5.6	Relation between Forward Difference, Backward Difference and Shift Operators i.e. $\Delta$ , $\nabla$ and E.....	5-3
5.7	Forward Difference Table .....	5-8
5.8	Backward Difference Table .....	5-9
✓	<b>Syllabus Topic : Newton's Forward Difference Interpolation</b> .....	5-10
5.9	Newton's Forward Difference Interpolation Formula .....	5-10
✓	<b>Syllabus Topic : Newton's Backward Difference Interpolation</b> .....	5-14
5.10	Newton's Backward Difference Interpolation Formula.....	5-14
✓	<b>Syllabus Topic : Lagrange's Formula</b> .....	5-20
5.11	Lagrange's Interpolation Formula.....	5-20
5.12	University Questions and Answers .....	5-24
<b>Chapter 6 : Solution of simultaneous algebraic equations (linear)</b>		<b>6-1 to 6-15</b>
6.1	Introduction .....	6-1
✓	<b>Syllabus Topic : Gauss-Jordan Method</b> .....	6-1

6.2	Gauss-Jordan Method.....	6-1
✓	<b>Syllabus Topic : Gauss - Seidel Method</b> .....	6-8
6.3	Gauss - Seidel Method .....	6-8
6.4	University Questions and Answers .....	6-14
<b>Chapter 7 : Numerical Differentiation and Integration</b>		<b>7-1 to 7-22</b>
7.1	Introduction .....	7-1
✓	<b>Syllabus Topic : Numerical differentiation</b> .....	7-1
7.2	Numerical Differentiation .....	7-1
7.3	Formula for Differentiation .....	7-2
	7.3.1 For Equally Spaced Values of The Arguments .....	7-2
	7.3.2 For Unequally Spaced Values of the Argument .....	7-5
✓	<b>Syllabus Topic : Numerical Integration using Trapezoidal rule, Simpson's 1/3<sup>rd</sup> and 3/8<sup>th</sup> rule</b> .....	7-9
7.4	Numerical Integration .....	7-9
	7.4.1 Newton - Cote's Quadrature Formula .....	7-10
	7.4.2 Trapezoidal Rule .....	7-11
	7.4.3 Simpson's One-third Rule .....	7-12
	7.4.4 Simpson's Three-Eighth Rule .....	7-12
7.5	University Questions and Answers .....	7-21
<b>Chapter 8 : Numerical Solution of First and Second Order Differential Equations</b>		<b>8-1 to 8-28</b>
8.1	Introduction .....	8-1
✓	<b>Syllabus Topic : Taylor Series</b> .....	8-1
8.2	Taylor Series Method.....	8-1
✓	<b>Syllabus Topic : Euler's Method</b> .....	8-7
8.3	Euler's Method.....	8-7
✓	<b>Syllabus Topic : Modified Euler's Method</b> .....	8-10
8.4	Modified Euler's Method .....	8-10
✓	<b>Syllabus Topic : Runge-Kutta Method for 1st and 2nd Order Differential Equations</b> .....	8-14
8.5	Runge-Kutta Method of First and Second Order Differential Equations .....	8-14
	8.5.1 Second Order Runge-Kutta Method .....	8-14
	8.5.2 Fourth Order Runge-Kutta Method .....	8-21
8.6	University Questions and Answers .....	8-27
<b>Chapter 9 : Least-Squares Regression</b>		<b>9-1 to 9-26</b>
9.1	Introduction .....	9-1
9.2	Correlation.....	9-1
	9.2.1 Types of Correlation .....	9-1
	9.2.2 Scatter Diagram .....	9-2

✓ Syllabus Topic : Linear Regression.....	9-3
9.3 Linear Regression.....	9-3
9.3.1 Method of Least Squares .....	9-3
9.3.2 Fitting a Straight Line .....	9-4
9.3.3 Lines of Regression .....	9-8
9.3.4 Properties of Regression Coefficients .....	9-10
✓ Syllabus Topic : Polynomial Regression.....	9-13
9.4 Polynomial Regression.....	9-13
✓ Syllabus Topic : Non-linear Regression.....	9-13
9.5 Non-linear Regression.....	9-13
9.5.1 Polynomial Fit : Non-linear regression.....	9-13
✓ Syllabus Topic : Multiple Linear Regression .....	9-16
9.6 Multiple Linear Regression.....	9-16
✓ Syllabus Topic : General Linear Least Squares.....	9-18
9.7 General Linear Least Squares .....	9-18
9.7.1 Homoscedasticity .....	9-18
9.7.2 Ordinary Least Squares (OLS) .....	9-19
9.7.3 Generalized Least Square (GLS).....	9-21
9.8 University Questions and Answers .....	9-24
<b>Chapter 10 : Linear Programming</b>	<b>10-1 to 10-25</b>
10.1 Introduction .....	10-1
✓ Syllabus Topic : Linear Optimization Problem.....	10-1
10.2 Meaning of Linear Programming Problem (Linear Optimization Problem) .....	10-1
✓ Syllabus Topic : Formulation .....	10-1
10.3 Mathematical Formulation of L.P.P.....	10-1
✓ Syllabus Topic : Graphical Solution.....	10-5
10.4 Graphical Solution of L.P.P .....	10-5
10.4.1 Graph of an Inequality or an Equation .....	10-5
10.5 Graphical Method.....	10-6
10.5.1 Steps for Solving L.P.P Graphically.....	10-7
10.5.2 Convex Polygon Theorem .....	10-7
10.5.3 Iso-Profit or Iso-cost Line.....	10-8
✓ Syllabus Topic : Basic solution and Feasible solution .....	10-18
10.6 Basic Solution and Feasible Solution.....	10-18
10.7 University Questions and Answers .....	10-22
<b>Chapter 11 : Random Variables</b>	<b>11-1 to 11-33</b>
11.1 Introduction .....	11-1
11.2 Random Variable.....	11-1
✓ Syllabus Topic : Discrete and Continuous random variables.....	11-3

11.3	Discrete and Continuous Random Variables .....	11-3
11.3.1	Discrete Random Variables .....	11-3
11.3.2	Continuous Random Variables .....	11-3
✓	<b>Syllabus Topic :</b> Probability Distribution of a Random Variable .....	11-4
11.4	Probability Distribution of a Random Variables.....	11-4
11.5	Cumulative Distribution Function or Distribution Function.....	11-9
✓	<b>Syllabus Topic :</b> Probability Density Function.....	11-13
11.6	Probability Density Function .....	11-13
11.6.1	Cumulative Distribution Function or Distribution Function for a Continuous r.v. X. ....	11-16
✓	<b>Syllabus Topic :</b> Expected value, Variance .....	11-18
11.7	Expected Value, Variance .....	11-18
11.7.1	Expected Value .....	11-18
11.7.2	Variance and Standard Deviation .....	11-18
11.7.3	Properties of Expectation and Variance .....	11-21
11.7.4	Expected Value and Variance For a Continuous Random Variable X.....	11-22
11.8	University Questions and Answers .....	11-32
<b>Chapter 12 : Discrete and Continuous Distribution</b>		<b>12-1 to 12-41</b>
12.1	Introduction .....	12-1
✓	<b>Syllabus Topic :</b> Discrete Distribution : Uniform .....	12-1
12.2	Discrete Uniform Distribution .....	12-1
12.2.1	Mean of Discrete Uniform Distribution .....	12-2
12.2.2	Variance of a Discrete Uniform Distribution .....	12-2
✓	<b>Syllabus Topic :</b> Discrete Distribution : Bernoulli .....	12-4
12.3	Bernoulli Distribution : .....	12-4
12.3.1	Mean and Variance of Bernoulli Distribution .....	12-5
✓	<b>Syllabus Topic :</b> Discrete Distribution : Binomial .....	12-5
12.4	Binomial Distribution.....	12-5
12.4.1	Conditions of Binomial Distribution .....	12-7
12.4.2	Mean of Binomial Distribution.....	12-7
12.4.3	Variance of Binomial Distribution .....	12-8
12.4.4	Recurrence Relation for Binomial Probabilities.....	12-12
12.4.5	Fitting of Binomial Distribution .....	12-12
✓	<b>Syllabus Topic :</b> Discrete Distribution : Poisson.....	12-15
12.5	Poisson Distribution .....	12-15
12.5.1	Mean of Poison Distribution.....	12-16
12.5.2	Variance of Poison Distribution .....	12-16
12.5.3	Recurrence Relation between Probabilities of Poisson Distribution.....	12-19
12.5.4	Fitting of Poisson Distribution.....	12-23
✓	<b>Syllabus Topic :</b> Continuous Distribution : Exponential.....	12-26

12.6 Continuous Distribution ..... 12-26

    12.6.1 Exponential Distribution..... 12-26

    12.6.2 Mean of Exponential Distribution ..... 12-26

    12.6.3 Variance of Exponential Distribution ..... 12-27

✓ **Syllabus Topic : Continuous Distribution : Uniform Distributions ..... 12-28**

12.7 Continuous Uniform Distribution or Rectangular Distribution ..... 12-28

    12.7.1 Mean of Continuous Uniform Distribution ..... 12-29

    12.7.2 Variance of Continuous Uniform Distribution ..... 12-29

✓ **Syllabus Topic : Normal Distribution state all the properties and its applications ..... 12-31**

12.8 Normal Distribution ..... 12-31

    12.8.1 Normal Curve ..... 12-31

    12.8.2 Properties of Normal Distribution ..... 12-32

    12.8.3 Mean and Variance of Normal Distribution ..... 12-32

    12.8.4 Standard Normal Distribution..... 12-32

12.9 University Question and Answer ..... 12-41

- **Model Question Papers ..... M-1 to M-11**
- **Practical 1 : Iterative Calculation ..... P-1 to P-13**
- **Practical 2 : Solution of Algebraic and Transcendental Equations..... P-1 to P-8**
- **Practical 3 : Interpolation ..... P-1 to P-6**
- **Practical 4 : Solving Linear System of Equations by Iterative Methods..... P-1 to P-7**
- **Practical 5 : Numerical Differentiation ..... P-1 to P-2**
- **Practical 6 : Numerical Integration ..... P-1 to P-3**
- **Practical 7 : Solution of Differential Equations ..... P-1 to P-3**
- **Practical 8 : Regression ..... P-1 to P-8**
- **Practical 9 : Random Variables and Distributions..... P-1 to P-5**
- **Practical 10 : Distributions ..... P-1 to P-4**
- **Annexure ..... A-1 to A-2**
- **Appendix A ..... A-1 to A-28**
