

Unit-I

Chapter 1 : Ecosystem 1-1 to 1-28

Syllabus :

- 1.1 Structure and components of ecosystem
- 1.2 Types of Ecosystem, changes in ecosystem
- 1.3 Various natural cycles like carbon, Nitrogen, Sulphur, Phosphorus
- 1.4 Ecosystem conservation, carrying capacity of earth, Biomes in India, (ESA) Ecologically Sensitive Areas
- 1.5 Bio diversity, its need and importance, International Union for Conservation of Nature (IUCN) red list
- 1.6 Concept of Ecological foot print, virtual water, global ecological overshoot.

1.1 Structure and Components of Ecosystem 1-1

1.1.1 Introduction.....1-1

1.2 Ecology 1-1

1.3 Factors Affecting Ecosystem..... 1-2

1.3.1 Introduction.....1-2

1.3.2 The main Biogeographical Realms of the World.....1-3

1.3.3 Biogeographical Realms of India.....1-3

1.3.4 Slogans To save Environment1-3

1.4 Structure and Functions of an Ecosystem..... 1-3

1.4.1 Introduction.....1-4

1.4.2 The Primary Producers1-5

1.4.3 The Consumers.....1-5

1.4.4 Decomposers or Detrivores or Reducers1-5

1.4.5 Complete Ecosystem.....1-5

1.4.6 Incomplete Ecosystem.....1-5

1.5 Flow of Energy in the Ecosystem 1-5

1.6 Ecological Pyramids..... 1-7

1.6.1 Introduction.....1-7

1.7 Concept of Food Chain..... 1-8

1.7.1 Food Chain.....1-9

1.7.2 Concept of Food Web.....1-9

1.8 Some Important Ecosystems.....1-10

1.8.1 Grassland Ecosystem..... 1-10

1.8.2 Forest Ecosystem 1-11

1.8.3 Effects of Deforestation 1-12

1.8.4 Desert Ecosystems..... 1-12

1.8.5 Water based or Aquatic Ecosystems..... 1-13

1.8.6 Estuarian Ecosystem..... 1-15

1.8.7 Artificial Ecosystem..... 1-15

1.9 Changes in Ecosystem.....1-15

1.10 Biogeochemical Cycles1-16

1.10.1 Natural Cycles 1-16

1.11 Material Cycles.....1-19

1.11.1 Introduction..... 1-19

1.12 Definitions.....1-20

1.13 Differences1-20

1.14 Ecosystem Conservation.....1-21

1.14.1 Introduction..... 1-21

1.14.2 The Conservation of Ecosystems..... 1-21

1.14.3 Need to Conserve the Ecosystem 1-21

1.14.4 Carrying Capacity of an Ecosystem 1-22

1.14.5 Biomes in India..... 1-22

1.14.6 Ecologically Sensitive Areas (ESA) 1-23

1.15 Bio-diversity, Need and its Importance.....1-24

1.15.1 Introduction..... 1-24

1.15.2 Importance of Biodiversity 1-24

1.15.3 Type of Biodiversity 1-24

1.15.4 International Union for Conservation of Nature (IUCN)..... 1-25

1.15.5 Endangered Species in India 1-26

1.16 The Concept of Ecological Foot-Print1-26

1.16.1 Ecological Foot-Print 1-26

1.16.2 Examples of Ecological Foot-Prints..... 1-26

1.16.3 The Concept of Ecological Foot-Print..... 1-26

1.16.4 The Importance of the Concept..... 1-26

1.16.5 Method to calculate the Ecological Foot-Print 1-27

1.16.6 The Virtual Water..... 1-27

1.16.7 Importance of the term, Virtual Water 1-27

1.16.8 Examples of Virtual water 1-27

1.16.9 Global Ecological Overshoot..... 1-27

1.16.10 The Overshoot Day 1-28

Unit-II

Chapter 2 : Pollution and its Types 2-1 to 2-50

Syllabus :

- 2.1. Definition of pollution and pollutant.
- 2.2. Air pollution, classification and its sources.
- 2.3. Air pollution control Equipments.
- 2.4. Water pollution, pollution parameters like BOD,COD, pH, Total suspended solids, Turbidity, Total Solids.
- 2.5. Waste water treatment like primary, secondary and tertiary.
- 2.6. Solid waste generation, sources and characteristics of Muncipal solid waste.
- 2.7. Collection and disposal of Muncipal waste and Hazardous waste.
- 2.8. Noise pollution- its effects, sources and measurement.
- 2.9. Plastic waste and its hazard
- 2.10. E waste and its hazard

2.1	Air Pollution	2-1
2.1.1	Introduction.....	2-1
2.2	Air Pollutants and their Classification.....	2-1
2.2.1	Introduction.....	2-1
2.3	Types of Air Pollutants.....	2-2
2.3.1	Introduction.....	2-2
2.3.2	Primary Air Pollutants.....	2-2
2.3.3	Carbon Monoxide [CO].....	2-2
2.3.4	Nitrogen Oxides [NOx].....	2-2
2.3.5	Sulphur Oxides [SOx].....	2-3
2.3.6	Hydrocarbons (HC)	2-4
2.3.7	Particulates	2-4
2.3.8	The Secondary Air Pollutants	2-6
2.3.9	Differences between Primary and Secondary Pollutants.....	2-6
2.3.10	Primary Air Pollutants : Sources and Effects	2-6
2.4	Control of Air Pollution.....	2-7
2.4.1	Introduction.....	2-7

2.4.2	Modification in the Process by the Raw Materials.....	2-7
2.4.3	Modification in the Process by Changing the Fuel	2-7
2.4.4	Modification in Process Equipment to Control Air Pollution.....	2-7
2.4.5	Modification in Production Process to Reduce the Air Pollution.....	2-8
2.5	Measures to Control Air Pollution.....	2-8
2.5.1	Introduction.....	2-8
2.6	Control of Particulate Matters	2-8
2.6.1	Settling Chamber	2-8
2.6.2	Working Principle and Design Criteria of Settling Chamber	2-9
2.7	Simple Hoods and Ducts	2-9
2.7.1	Introduction.....	2-9
2.7.2	Designing Local Exhaust System	2-9
2.7.3	The Hood Design Basics	2-9
2.8	Control of Particulate Matter	2-10
2.8.1	Introduction.....	2-10
2.8.2	Gravity Settling Chamber.....	2-10
2.8.3	Cyclone Collector.....	2-10
2.8.4	Electrostatic Precipitator.....	2-10
2.8.5	Wet Scrubbers	2-11
2.8.6	Other Types of Scrubbers	2-11
2.8.7	Fabric Filters/Bag Filters.....	2-12
2.9	Natural Emissions	2-12
2.9.1	Introduction.....	2-12
2.10	Control of Air Pollution at Source.....	2-12
2.10.1	Introduction.....	2-12
2.10.2	Absorption in Liquid.....	2-13
2.10.3	Adsorption on Solid Surface	2-13
2.10.4	Condensation to a Liquid	2-13
2.10.5	Conversion to a Less Toxic Gas of Non-Polluted Gas.....	2-13
2.11	Control of Air Pollution from Automobiles	2-13
2.11.1	Introduction.....	2-13

2.11.2	Various IC engine pollutants, are controlled as under.....	2-13	2.19.6	Difference between Preliminary Treatment and Primary Treatment.....	2-22
2.12	Absorption Tower.....	2-14	2.19.7	Pollution Due to Improper Disposal of Sewage	2-23
2.12.1	Introduction.....	2-14	2.20	Introduction to Unit Operation and Processes.....	2-23
2.12.2	Objectives of the Absorption Towers.....	2-14	2.20.1	Introduction.....	2-23
2.12.3	Designing of Absorption Towers.....	2-15	2.20.2	Treatment of Sewage	2-23
2.13	Incinerators	2-15	2.21	Solid Waste.....	2-24
2.13.1	Introduction.....	2-15	2.21.1	Introduction.....	2-24
2.13.2	Designing of Incinerator.....	2-15	2.21.2	Definition of Solid Waste.....	2-24
2.14	Collection Efficiencies for Laminar and Turbulent Flows for settling Chambers.....	2-16	2.21.3	Sources of Solid Waste	2-24
2.14.1	Introduction.....	2-16	2.21.4	Types of Solid Waste.....	2-25
2.15	Particle cut Size for Cyclone	2-16	2.22	Factors Affecting Solid Waste Generation	2-26
2.15.1	Introduction.....	2-16	2.22.1	Introduction.....	2-26
2.16	ESP Concept of Frictional and Overall Efficiencies	2-16	2.22.2	Terms Used in Solid Waste Management	2-26
2.16.1	Introduction.....	2-16	2.23	Composition of Solid Waste	2-27
2.16.2	ESP Efficiency Calculator	2-16	2.23.1	Introduction.....	2-27
2.17	Water Pollution	2-16	2.24	Collection of Solid Waste	2-27
2.17.1	Introduction.....	2-17	2.24.1	Introduction.....	2-27
2.17.2	Causes of Water-Pollution.....	2-17	2.24.2	Method of Collection of Solid Wastes	2-27
2.17.3	Effects of Water Pollution on the Environment....	2-18	2.24.3	House to House Collection.....	2-27
2.18	Composition of Domestic and Industrial Sewage.....	2-18	2.24.4	Storage Bin System.....	2-28
2.18.1	Introduction.....	2-18	2.24.5	Collection of Solid Waste an Environmental Need	2-29
2.18.2	Composition of Sewage.....	2-19	2.24.6	Points to be noted for Safe Collection of M.S.W	2-29
2.18.3	Characteristics of Sewage.....	2-19	2.25	Collection of Municipal Solid Wastes	2-29
2.18.4	Physical Characteristics.....	2-19	2.25.1	Factors affecting the Collection of Dry Refuse.....	2-29
2.18.5	Chemical Characteristics of Sewage.....	2-20	2.26	Storage of Solid Waste.....	2-30
2.18.6	Biological Characteristics of Sewage	2-21	2.26.1	Introduction.....	2-30
2.19	Sewage Treatment.....	2-22	2.26.2	Criteria to Establish Good Storage for M.S.W.....	2-30
2.19.1	Introduction.....	2-22	2.27	Disposal of M.S.W	2-30
2.19.2	Preliminary Treatment.....	2-22	2.27.1	Composting	2-30
2.19.3	Primary Treatments.....	2-22	2.27.2	Process of Composting.....	2-30
2.19.4	Secondary Treatments.....	2-22	2.27.3	Factors Affecting Composting Process.....	2-31
2.19.5	Tertiary Treatment.....	2-22	2.27.4	Methods of Composting.....	2-31
			2.27.5	Mechanical Composting.....	2-32
			2.27.6	Vermi Composting	2-32

<p>2.27.7 Beneficial Effects of Vermicompostings..... 2-32</p> <p>2.28 Land Filling Techniques /Sanitary Landfill.....2-32</p> <p>2.28.1 Introduction..... 2-32</p> <p>2.28.2 Land Filling Method 2-33</p> <p>2.28.3 Leachate and its Control..... 2-33</p> <p>2.28.4 Land Fill Gases..... 2-34</p> <p>2.28.5 Site Selection for Land Fill..... 2-34</p> <p>2.29 Incineration of Waste2-34</p> <p>2.29.1 Introduction..... 2-34</p> <p>2.29.2 Advantages of Method..... 2-34</p> <p>2.29.3 Disadvantages of Method..... 2-34</p> <p>2.30 Disposal of Solid Waste by Paralysis2-34</p> <p>2.30.1 Introduction..... 2-34</p> <p>2.30.2 Types of Incineration System 2-35</p> <p>2.31 Introduction of Hazardous Waste2-35</p> <p>2.31.1 Introduction..... 2-35</p> <p>2.31.2 Types of Hazardous Waste..... 2-35</p> <p>2.31.3 Characteristics of Hazardous Wastes..... 2-36</p> <p>2.31.4 Disposal of the Hazardous Waste..... 2-36</p> <p>2.32 The Plastic Waste.....2-36</p> <p>2.32.1 Introduction..... 2-36</p> <p>2.32.2 Problems Related with Plastic Waste..... 2-37</p> <p>2.32.3 Top five Countries Which Create Maximum Plastic Waste 2-37</p> <p>2.32.4 The Methods to Control Plastic Waste..... 2-37</p> <p>2.32.5 Advantages of Re-cycling or Reprocessing of Plastic Waste into Fuel..... 2-37</p> <p>2.33 E-waste2-38</p> <p>2.33.1 Introduction..... 2-38</p> <p>2.33.2 Types of E-waste..... 2-38</p> <p>2.33.3 Ill Effect of E-Waste 2-38</p> <p>2.33.4 Disposal of E-Waste..... 2-40</p> <p>2.33.5 Recycling of E-Waste 2-41</p> <p>2.33.6 Merits of Recycling the E-Waste 2-43</p> <p>2.34 Noise Pollution2-44</p> <p>2.34.1 Introduction..... 2-44</p>	<p>2.34.2 Important Sources of Noise Pollution 2-44</p> <p>2.34.3 Measurement of Sound / Noise Intensity..... 2-45</p> <p>2.34.4 Effects of Noise Pollution 2-45</p> <p>2.34.5 Measures to Control the Noise Pollution 2-45</p> <p>2.34.6 Important Terminologies 2-46</p> <p>2.34.7 Levels of Noise and Problems 2-46</p> <p>2.34.8 Noise Rating Systems 2-46</p> <p>2.34.9 Noise Control Techniques 2-47</p> <p>2.34.10 Permissible Noise Level 2-50</p>
--	--

Unit-III

Chapter 3 : Renewable Sources of Energy 3-1 to 3-26

Syllabus :

- 3.1 Need of Renewable energy and energy policy
- 3.2 Solar energy : National solar mission
- 3.3 Features of solar thermal and PV systems. Advanced collector, Solar Pond, Solar water heater, Solar dryer, polycrystalline, monocrystalline and thin film PV systems
- 3.4 Wind Energy : Growth of wind power in India
- 3.5 Types of wind turbines : Vertical axis wind turbines (VAWT) and horizontal axis wind turbines (HAWT)
- 3.6 Types of HAWTs : drag and lift types
- 3.7 Biomass : Overview of biomass as energy source. Thermal characteristics of biomass as fuel
- 3.8 Anaerobic digestion, Biogas production mechanism, utilization and storage.
- 3.9 New energy sources : Geothermal energy, Ocean energy sources, Tidal energy conversion, Hydrogen energy.

3.1	Need of Renewable Energy and Energy Policy..... 3-1
3.1.1	Energy a Basic Need for Economic Development..... 3-1
3.1.2	World Energy Scenario..... 3-1
3.1.3	The Energy Scenario of India 3-2
3.2	Policies to Save Energy..... 3-3

3.2.1	Introduction.....	3-3	3.8.1	Introduction.....	3-18
3.3	Classification of Energy Resources	3-4	3.8.2	The Sources of Bio-mass	3-18
3.3.1	Introduction.....	3-4	3.8.3	Advantages of Biomass	3-19
3.3.2	Energy Conservation	3-4	3.8.4	Limitations of Biomass	3-19
3.3.3	Comparison Between the Conventional and Non-Conventional Energy Resources.....	3-4	3.8.5	The Thermal characteristics of Biomass.....	3-19
3.4	The Need of Non-Conventional and Renewable Resources in India	3-5	3.9	Anaerobic Digestion.....	3-20
3.4.1	Introduction.....	3-5	3.9.1	Introduction.....	3-20
3.5	Non-conventional Energy Resources	3-5	3.9.2	Biological Process/ Pyrolysis.....	3-20
3.5.1	Introduction.....	3-5	3.9.3	Types of Anaerobic Digesters	3-20
3.5.2	Use of Solar Energy and Environment.....	3-6	3.10	Biogas Production Mechanism Utilization and Storage	3-21
3.5.3	Advantages of Solar Energy	3-6	3.10.1	Introduction.....	3-21
3.5.4	Limitations of solar Energy.....	3-6	3.10.2	Mechanism of Anaerobic Digestion.....	3-21
3.5.5	Solar Radiation	3-6	3.10.3	The Stages of Anaerobic Digestion	3-21
3.5.6	National Solar Mission	3-7	3.10.4	Advantages and Disadvantages of Biogas.....	3-22
3.5.7	Features of Solar Thermal and P.V. Systems.....	3-7	3.10.5	The Feedstock / Raw Material for the Biogas Generation.....	3-22
3.5.8	Solar Pounds Solar Water Heater Solar Dryer	3-9	3.10.6	Properties of Biogas	3-22
3.5.9	Polycrystalline, Monocrystalline and Thin Film P.V. System.....	3-11	3.10.7	The Applications of Biogas.....	3-22
3.6	Wind Energy	3-11	3.11	Classification of Biogas Plants	3-22
3.6.1	Introduction.....	3-11	3.11.1	Introduction.....	3-22
3.6.2	Wind Vane and Anemometer and Wind Maps, Wind Dali	3-12	3.11.2	On the Basis of Method of Loading	3-22
3.6.3	Use of Wind Energy and Environment	3-13	3.11.3	On the Basis of Design of the Holder.....	3-22
3.6.4	Growth of Wind Power in India	3-13	3.11.4	On the Basis of the Size of the Digester	3-23
3.7	Wind Turbines.....	3-14	3.11.5	On the Basis of the Feed Stock (Raw Material Used)	3-23
3.7.1	Introduction.....	3-14	3.12	Gas Distribution System	3-23
3.7.2	Vertical Axis Wind Turbines (VAWT)	3-14	3.12.1	Site Selection of a Biogas Plant.....	3-24
3.7.3	Horizontal Axis Wind Turbine	3-16	3.13	New Energy Sources.....	3-24
3.7.4	Types of H.A.W.T.	3-17	3.13.1	Geothermal Energy and Environment	3-24
3.7.5	Lift and Drag Type HAWT Plants	3-17	3.13.2	Oceanic Energy	3-24
3.7.6	Application of Wind Mills and Wind Power	3-17	3.14	Hydrogen as an Alternative Future Source of Energy	3-25
3.7.7	Site Selection Criteria for wind Mill Turbines	3-18	3.14.1	Introduction.....	3-25
3.7.8	The Control System of Large Sized Wind Turbines.....	3-18	3.14.2	Sources of Hydrogen in the Nature	3-25
3.8	Biomass Energy	3-18	3.14.3	Hydrogen energy and environment :.....	3-25
			3.15	Concept of Electromagnetic Energy.....	3-26

Unit-IV

Chapter 4 : Climate Change 4-1 to 4-9

Syllabus :

- 4.1 Identify Factors affecting climate change in given locality.
- 4.2 Definition of climate change
- 4.3 Global warming-causes, effect, process
- 4.4 Greenhouse effect
- 4.5 Ozone depletion
- 4.6 Factors affecting climate change
- 4.7 Impact and mitigation
- 4.8 Climate change management.

- 4.1 Introduction 4-1**
 - 4.1.1 Climatic Change.....4-1
- 4.2 Factors affecting the Climatic Change 4-1**
 - 4.2.1 Introduction.....4-1
- 4.3 Acid Rains..... 4-2**
 - 4.3.1 Introduction.....4-2
 - 4.3.2 Source of Acids in the Rainfall4-3
 - 4.3.3 Effect of Acid Rains4-3
 - 4.3.4 Measures to Control the Acid Rain4-3
- 4.4 Depletion of Ozone Layer 4-3**
 - 4.4.1 Introduction.....4-4
 - 4.4.2 Causes of Ozone Depletion.....4-4
 - 4.4.3 Effects of Ozone Layer Depletion :.....4-4
 - 4.4.4 Measures to Control the Depletion of Ozone Layer :.....4-4
 - 4.4.5 Chemical and Photochemical Reactions in the Atmosphere4-4
- 4.5 Global Warming and Green House Effects..... 4-6**
 - 4.5.1 Introduction.....4-6
 - 4.5.2 Effects of Green House Gases or Global Warming.....4-7
- 4.6 Green House Gases 4-7**
 - 4.6.1 Introduction.....4-7
 - 4.6.2 Chloro Fluoro Carbon (C.F.C).....4-7
 - 4.6.3 Methane (CH₄)4-7

- 4.6.4 Nitrous Oxides (N₂O)4-7
- 4.7 Climatic Change Management..... 4-8**
 - 4.7.1 Introduction.....4-8
 - 4.7.2 Steps To Control Global Warming.....4-8
 - 4.7.3 Sustainable Development.....4-8

Unit-V

Chapter 5 : Environmental Legislation and Sustainable Practices 5-1 to 5-17

Syllabus :

- 5.1 Environmental policies in India
- 5.2 Air act, water act, Environment protection act, wild life protection act, Forest conservation act, Biodiversity act
- 5.3 Environmental management system: ISO 14000, definition and benefits
- 5.4 Rain water harvesting
- 5.5 Green building and rating system in India
- 5.6 Cradle to cradle concept and Life cycle analysis
- 5.7 Green label
- 5.8 Carbon credit system its advantages and disadvantages
- 5.9 Concept of 5R(Refuse, Reduce, Reuse, Repurpose, Recycle)
- 5.10 Eco tourism : advantages and disadvantages

- 5.1 Environmental Policies in India..... 5-1**
 - 5.1.1 The Role of the Government.....5-1
- 5.2 Environmental Protection Act 1986..... 5-2**
 - 5.2.1 Introduction.....5-2
 - 5.2.2 Objectives of the Act 1986.....5-2
 - 5.2.3 Powers of the Central Government.....5-2
 - 5.2.4 The Penalties for Violation of the Act 1986.....5-3
- 5.3 Air [Prevention and Control of Pollution] Act 1981 5-4**
 - 5.3.1 Introduction.....5-4
 - 5.3.2 Aims and Objectives of the Act.....5-4
 - 5.3.3 Functions of the Boards.....5-4

5.3.4	Powers of the Boards.....	5-4	5.8.3	ISO 9000 To ISO 14000.....	5-11
5.3.5	The Penalties for Violation of the Provisions under the Air Pollution Act 1981.....	5-4	5.8.4	Benefits of ISO 14000.....	5-11
5.4	Water (Prevention and Control of Pollution) Act 1974	5-4	5.9	Rainwater Harvesting	5-11
5.4.1	Introduction.....	5-4	5.9.1	Introduction.....	5-11
5.4.2	Aims and Objectives of the Act.....	5-4	5.9.2	Method of Rain Harvestings	5-11
5.4.3	The Functions of the Central Board	5-4	5.9.3	Advantages of Rainwater Harvesting.....	5-12
5.4.4	Functions the State Boards	5-5	5.10	Green Building and Rating system in India.....	5-12
5.4.5	Powers of the State Governments.....	5-5	5.10.1	Introduction.....	5-12
5.4.6	The Penalties for Violation of Provisions of the Act	5-6	5.10.2	Green Building Rating System	5-13
5.5	Wild life Protection Act 1972.....	5-6	5.10.3	Green Rating System in India.....	5-13
5.5.1	Introduction.....	5-6	5.10.4	Green Buildings in Gujarat	5-13
5.5.2	Aims and Objectives.....	5-6	5.10.5	Concept of Green City	5-14
5.5.3	Constitution and Duties of the Wild-life Advisory Board	5-6	5.10.6	Top Four Cleanest Cities in Gujarat State	5-14
5.5.4	Prohibition of Hunting the Wild-life	5-7	5.11	Cradle to Cradle concept and Life Cycle Analysis.....	5-14
5.5.5	Penalties for Violation of the Provisions in this Act.....	5-8	5.11.1	Introduction.....	5-14
5.6	Forest Conservation Act, 1980	5-8	5.11.2	Designed Concept of Cradle to Cradle	5-14
5.6.1	Introduction.....	5-8	5.12	Green Label	5-15
5.6.2	Aims and Objectives.....	5-8	5.12.1	Introduction.....	5-15
5.6.3	Notification of Reserve Forests :	5-8	5.12.2	Eco Market India.....	5-15
5.6.4	Powers of The Forest Officer.....	5-8	5.12.3	Purpose of Green Labeling	5-15
5.6.5	Penalties for Violation of the Provisions of the Act	5-9	5.12.4	Some of the famous Eco-Labels.....	5-15
5.7	Biodiversity Act 2002 (India)	5-10	5.13	Carbon Credit System	5-15
5.7.1	Introduction.....	5-10	5.13.1	Introduction.....	5-15
5.7.2	The Objectives of the Act	5-10	5.13.2	Trading of carbon Credit.....	5-15
5.7.3	Types of Biodiversity.....	5-10	5.13.3	Advantages of Caron Credit System	5-15
5.7.4	Need of the Biodiversity Act.....	5-10	5.13.4	Disadvantages of Carbon Credit System	5-15
5.7.5	National Biodiversity Authority (NBA)	5-10	5.14	Concept of '5' Rs. (Refuse, Reduce, Reuse Repurpose Recycle) ..	5-16
5.7.6	Functions of N.B.A. and S.B.B.	5-10	5.14.1	Introduction.....	5-16
5.7.7	The Penalties.....	5-10	5.14.2	Five Rs.	5-16
5.8	Environmental Management System ISO 14000	5-11	5.15	Ecotourism	5-16
5.8.1	Introduction.....	5-11	5.15.1	Introduction.....	5-16
5.8.2	Films and Objectives	5-11	5.15.2	Concepts of Ecotourism.....	5-16
			5.15.3	India's First Ecotourism Spot.....	5-17
			5.15.4	Eco-Tourism in Gujarat.....	5-17
