

**UNIT - I**

➤ Chapter 1 : Introduction to Red Hat Enterprise Linux		1-1 to 1-35
1.1	Introduction to RHEL	1-1
✓	Syllabus Topic : Linux, Open Source and Red-Hat, Origin of Linux	1-1
1.1.1	Origin and History of Linux	1-1
✓	Syllabus Topic : Distributions	1-3
1.1.2	Distributions.....	1-3
✓	Syllabus Topic : Duties of Linux System Administrator	1-6
1.1.3	Duties of Linux System Administrator	1-6
1.2	Command Lines	1-8
✓	Syllabus Topic : Working with the Bash Shell	1-8
1.2.1	Working with the Bash Shell	1-8
✓	Syllabus Topic : Getting the Best of Bash	1-9
1.2.2	Getting the Best of Bash	1-9
✓	Syllabus Topic : Useful Bash Key Sequences	1-9
1.2.3	Useful Bash Key Sequences	1-9
✓	Syllabus Topic : Working with Bash History	1-10
1.2.4	Working with Bash History	1-10
✓	Syllabus Topic : Performing Basic File System Management Tasks, Working with Directories	1-10
1.2.5	Performing Basic File System Management Tasks	1-10
✓	Syllabus Topic : Finding Files	1-11
1.2.6	Finding Files	1-11
✓	Syllabus Topic : Piping and Redirection	1-14
1.2.7	Piping and Redirection.....	1-14
1.2.8	Working with an Editor	1-14
1.3	System Administration Task.....	1-16
✓	Syllabus Topic : Performing Job Management Tasks	1-16
1.3.1	Performing Job Management Tasks.....	1-16
✓	Syllabus Topic : System and Process Monitoring and Management	1-17
1.3.2	System and Process Monitoring and Management.....	1-17
✓	Syllabus Topic : Managing Processes with ps	1-18
1.3.3	Managing Processes with ps (Process Status)	1-18

✓	Syllabus Topic : Sending Signals to Processes with the Kill Command	1-20
1.3.4	Sending Signals to Processes with the kill Command	1-20
✓	Syllabus Topic : Using top to Show Current System Activity	1-20
1.3.5	Using top to Show Current System Activity	1-20
✓	Syllabus Topic : Managing Process Niceness	1-21
1.3.6	Managing Process Niceness	1-21
✓	Syllabus Topic : Scheduling Jobs	1-21
1.3.7	Scheduling Jobs	1-21
✓	Syllabus Topic : Mounting Devices	1-22
1.3.8	Mounting Devices	1-22
✓	Syllabus Topic : Working with Links	1-24
1.3.9	Working with Links	1-24
✓	Syllabus Topic : Creating Backups	1-24
1.3.10	Creating Backups	1-24
✓	Syllabus Topic : Managing Printers	1-26
1.3.11	Managing Printers	1-26
✓	Syllabus Topic : Setting Up System Logging	1-26
1.3.12	Setting Up System Logging	1-26
1.4	Managing Software Understanding	1-28
✓	Syllabus Topic : Understanding RPM	1-28
1.4.1	Understanding RPM	1-28
✓	Syllabus Topic : Understanding Meta Package Handlers	1-29
1.4.2	Understanding Meta Package Handlers	1-29
✓	Syllabus Topic : Creating Your Own Repositories	1-29
1.4.3	Creating Your Own Repositories	1-29
✓	Syllabus Topic : Managing Repositories	1-30
1.4.4	Managing Repositories	1-30
✓	Syllabus Topic : Installing Software with Yum	1-31
1.4.5	Installing Software with Yum	1-31
✓	Syllabus Topic : Querying Software	1-33
1.4.6	Querying Software	1-33
✓	Syllabus Topic : Extracting Files from RPM Packages	1-34
1.4.7	Extracting Files from RPM Packages	1-34

**UNIT - II**

➤ Chapter 2 : Configuring and Managing Storage		2-1 to 2-51
2.1	Configuring and Managing Storage.....	2-1
✓	Syllabus Topic : Understanding Partitions and Logical Volumes.....	2-1
2.1.1	Understanding Partitions and Logical Volumes	2-1
2.1.2	Creating Partitions	2-2
✓	Syllabus Topic : Creating File Systems, File System Overview.....	2-3
2.2	Creating File Systems	2-3
2.2.1	File Systems Overview	2-3
✓	Syllabus Topic : Creating File Systems.....	2-5
2.3	Creating File Systems	2-5
✓	Syllabus Topic : Changing File System Properties	2-5
2.3.1	Changing File System Properties.....	2-5
✓	Syllabus Topic : Checking the File System Integrity	2-6
2.3.2	Checking the File System Integrity.....	2-6
✓	Syllabus Topic : Mounting File Systems Automatically through fstab	2-7
2.4	Mounting File Systems Automatically through fstab	2-7
2.5	Working with NFS.....	2-8
2.5.1	Mounting NFS Partitions	2-8
2.6	Managing Quotas	2-9
2.6.1	Configuring Quota Settings	2-9
2.6.2	Command-Line Options of edquota.....	2-10
2.6.3	Managing Quotas	2-10
✓	Syllabus Topic : Working with Logical Volumes, Creating Logical Volumes	2-11
2.7	Working with Logical Volumes.....	2-11
2.7.1	Creating Logical Volumes	2-11
✓	Syllabus Topic : Resizing Logical Volumes	2-12
2.7.2	Resizing Logical Volumes.....	2-12
✓	Syllabus Topic : Working with Snapshots	2-13
2.7.3	Working with Snapshots	2-13
✓	Syllabus Topic : Replacing Failing Storage Devices	2-13
2.7.4	Replacing Failing Storage Devices.....	2-13

✓	Syllabus Topic : Creating Swap Space	2-14
2.7.5	Creating Swap Space	2-14
✓	Syllabus Topic : Working with Encrypted Volumes	2-14
2.7.6	Working with Encrypted Volumes	2-14
✓	Syllabus Topic : Understanding NetworkManager	2-15
2.8	Understanding NetworkManager.....	2-15
✓	Syllabus Topic : Working with Services and Runlevels	2-15
2.8.1	Working with Services and Runlevels.....	2-15
✓	Syllabus Topic : Configuring the Network with NetworkManager	2-16
2.8.2	Configuring the Network with NetworkManager.....	2-16
2.8.3	Working with system-config-network	2-17
✓	Syllabus Topic : Understanding NetworkManager Configuration Files	2-17
2.8.4	Understanding NetworkManager Configuration Files	2-17
✓	Syllabus Topic : Understanding Network Service Scripts	2-19
2.8.5	Understanding Network Service Scripts	2-19
✓	Syllabus Topic : Configuring Networking from the Command Line	2-19
2.8.6	Configuring Networking from the Command Line	2-19
✓	Syllabus Topic : Troubleshooting Networking	2-21
2.9	Troubleshooting Networking	2-21
2.9.1	Checking the Network Card.....	2-21
2.9.2	Checking Routing	2-22
✓	Syllabus Topic : Setting up IPv6	2-23
2.10	Setting up IPv6.....	2-23
✓	Syllabus Topic : Configuring SSH (Secured SHell)	2-23
2.10.1	Configuring SSH (Secured SHell)	2-23
2.10.2	Enabling the SSH Server	2-24
✓	Syllabus Topic : Using the SSH Client	2-25
2.10.3	Using the SSH Client	2-25
✓	Syllabus Topic : Using PuTTY on Windows Machines	2-26
2.10.4	Using PuTTY on Windows Machines	2-26
✓	Syllabus Topic : Configuring Key-Based SSH Authentication	2-26
2.10.5	Configuring Key-Based SSH Authentication	2-26
✓	Syllabus Topic : Using Graphical Applications with SSH	2-28
2.10.6	Using Graphical Applications with SSH	2-28

✓	Syllabus Topic : Using SSH Port Forwarding	2-28
2.10.7	Using SSH Port Forwarding	2-28
✓	Syllabus Topic : Configuring VNC Server Access	2-28
2.10.8	Configuring VNC (Virtual Network Computing) Server Access.....	2-28
✓	Syllabus Topic : Managing Users and Groups	2-29
2.11	Managing Users and Groups.....	2-29
✓	Syllabus Topic : Commands for user Management	2-29
2.11.1	Commands for user Management	2-29
2.11.2	Group Membership	2-30
✓	Syllabus Topic : Managing Passwords	2-31
2.12	Managing Passwords	2-31
2.12.1	Performing Account Maintenance with passwd	2-32
2.12.2	Managing Password Expiry	2-32
✓	Syllabus Topic : Modifying and Deleting user Accounts	2-33
2.13	Modifying and Deleting user Accounts	2-33
✓	Syllabus Topic : Configuration Files	2-35
2.13.1	Configuration Files	2-35
✓	Syllabus Topic : Creating Groups	2-37
2.14	Creating Groups	2-37
2.14.1	Commands for Group Management.....	2-37
2.14.2	Managing Group Membership.....	2-38
✓	Syllabus Topic : Using Graphical Tools for user and Group Management	2-38
2.15	Using Graphical Tools for user and Group Management.....	2-38
✓	Syllabus Topic : Using External Authentication Sources	2-38
2.16	Using External Authentication Sources	2-38
2.17	Connecting to an LDAP Server	2-39
2.18	Connecting to an Active Directory Server.....	2-40
✓	Syllabus Topic : Authentication Process, sssd, nsswitch, pluggable Authentication Modules	2-41
2.19	Authentication Process.....	2-41
2.19.1	Understanding sssd (System Security Service Daemon).....	2-41
2.19.2	Understanding nsswitch (Name Service Switch).....	2-42
2.19.3	Understanding PAM (Pluggable Authentication Modules).....	2-42

✓	Syllabus Topic : Managing Permissions, the Rule of Ownership	2-42
2.20	Managing Permissions	2-42
2.20.1	Role of Ownership	2-43
2.20.2	Displaying Ownership	2-43
2.20.3	Changing User Ownership.....	2-43
2.20.4	Changing Group Ownership	2-43
2.20.5	Default Ownership	2-44
✓	Syllabus Topic : Basic Permissions : Read, Write, and Execute	2-44
2.21	Basic Permissions: Read, Write, and Execute	2-44
2.21.1	Understanding Read, Write, and Execute Permissions.....	2-44
2.21.2	Applying Read, Write, and Execute Permissions	2-45
✓	Syllabus Topic : Advanced Permissions	2-46
2.22	Advanced Permissions	2-46
2.22.1	Understanding Advanced Permissions	2-46
2.22.2	Applying Advanced Permissions.....	2-47
✓	Syllabus Topic : Working with Access Control Lists	2-48
2.23	Working with Access Control Lists.....	2-48
2.23.1	Understanding ACLs	2-48
2.23.2	Preparing Your File System for ACLs.....	2-48
2.23.3	Changing and Viewing ACL Settings with setfacl (set file ACL) and getfacl (get file ACL).....	2-48
2.23.4	Working with Default ACLs.....	2-49
✓	Syllabus Topic : Setting Default Permissions with umask	2-49
2.24	Setting Default Permissions with umask	2-49
✓	Syllabus Topic : Working with Attributes	2-50
2.25	Working with Attributes	2-50

UNIT - III

➤ Chapter 3 : Securing Server with Iptables 3-1 to 3-46

✓	Syllabus Topic : Understanding Firewalls	3-1
3.1	Understanding Firewalls	3-1
3.1.1	Capabilities of Firewall.....	3-2
3.1.2	Types of Firewall	3-3

✓	Syllabus Topic : Setting up a Firewall with System-config-firewall	3-4
3.1.3	Setting up a Firewall with System-config-firewall	3-4
✓	Syllabus Topic : Allowing Services	3-5
3.1.4	Allowing Services	3-5
✓	Syllabus Topic : Trusted Interfaces	3-5
3.1.5	Trusted Interfaces	3-5
✓	Syllabus Topic : Masquerading	3-6
3.1.6	Masquerading	3-6
✓	Syllabus Topic : Configuration Files	3-7
3.1.7	Configuration Files	3-7
3.1.8	Configuring IP Masquerading	3-7
✓	Syllabus Topic : Setting up a Firewall with iptables	3-8
3.1.9	Setting up a Firewall with iptables	3-8
✓	Syllabus Topic : Tables, Chains, and Rules	3-8
3.2	Tables, Chains, and Rules	3-8
3.2.1	Chains	3-9
✓	Syllabus Topic : Composition of Rule	3-11
3.2.2	Composition of Rule	3-11
✓	Syllabus Topic : Configuration Example	3-12
3.2.3	Configuration Example	3-12
✓	Syllabus Topic : Advanced iptables Configuration	3-13
3.3	Advanced iptables Configuration	3-13
3.3.1	Iptables Options	3-13
✓	Syllabus Topic : Configuring Logging	3-18
3.3.2	Configuring Logging	3-18
✓	Syllabus Topic : The Limit Module	3-18
3.3.3	The Limit Module	3-18
✓	Syllabus Topic : Configuring NAT	3-19
3.3.4	Configuring NAT	3-19
3.4	Setting Up Cryptographic Services	3-21
✓	Syllabus Topic : Introducing SSL	3-21
3.4.1	Introducing SSL	3-21
✓	Syllabus Topic : Proof of Authenticity : the Certificate Authority	3-23
3.4.2	Proof of Authenticity : the Certificate Authority	3-23

3.4.2.1	The Trusted Root	3-23
3.4.2.2	Running Your Own CA	3-23
✓	Syllabus Topic : Managing Certificates with openssl	3-24
3.4.3	Managing Certificates with openssl.....	3-24
3.4.3.1	Creating a Self-Signed Certificate	3-24
✓	Syllabus Topic : Creating a Signing Request	3-25
3.4.4	Creating a Signing Request.....	3-25
✓	Syllabus Topic : Working with GNU Privacy Guard (GPG)	3-25
3.4.5	Working with GNU Privacy Guard (GPG).....	3-25
✓	Syllabus Topic : Creating GPG Keys	3-25
3.4.5.1	Creating GPG Keys.....	3-25
✓	Syllabus Topic : Key Transfer	3-26
3.4.5.2	Key Transfer	3-26
✓	Syllabus Topic : Managing GPG Keys	3-26
3.4.6	Managing GPG Keys	3-26
✓	Syllabus Topic : Encrypting Files with GPG	3-27
3.4.7	Encrypting Files with GPG.....	3-27
3.4.7.1	Encrypting and Decrypting Files	3-27
✓	Syllabus Topic : GPG Signing	3-28
3.4.8	GPG Signing	3-28
✓	Syllabus Topic : Signing RPM Files	3-28
3.4.9	Signing RPM Files	3-28
3.4.9.1	Signing RPM Packages with GPG Keys	3-29
✓	Syllabus Topic : What is NFS ?	3-30
3.5	NFS Overview	3-30
3.5.1	Working of NFS.....	3-30
✓	Syllabus Topic : Advantages and Disadvantages of NFS	3-31
3.5.2	NFS Advantages and Disadvantages	3-31
✓	Syllabus Topic : Configuring NFSv4	3-32
3.5.3	Configuring NFSv4.....	3-32
✓	Syllabus Topic : Setting up NFSv4	3-32
3.5.4	Setting up NFSv4.....	3-32
✓	Syllabus Topic : Mounting an NFS Share	3-34
3.5.5	Mounting an NFS Share.....	3-34

✓	Syllabus Topic : Making NFS Mounts Persistent	3-36
3.5.6	Making NFS Mounts Persistent	3-36
✓	Syllabus Topic : Configuring Automount	3-37
3.5.7	Configuring Automount.....	3-37
✓	Syllabus Topic : Configuring Samba.....	3-38
3.6	Configuring Samba	3-38
✓	Syllabus Topic : Setting Up Samba File Server	3-41
3.6.1	Setting Up Samba File Server.....	3-41
✓	Syllabus Topic : Samba Advanced Authentication Options	3-43
3.6.2	Samba Advanced Authentication Options	3-43
✓	Syllabus Topic : Accessing Samba Shares	3-44
3.6.3	Accessing Samba Shares.....	3-44
✓	Syllabus Topic : Offering FTP Services.....	3-44
3.6.4	Offering FTP Services	3-44

UNIT - IV

➤ Chapter 4 : Configuring DNS and DHCP 4-1 to 4-28

✓	Syllabus Topic : Introduction to DNS	4-1
4.1	Introduction to DNS.....	4-1
✓	Syllabus Topic : The DNS Hierarchy.....	4-2
4.1.1	The DNS Hierarchy	4-2
✓	Syllabus Topic : DNS Server Types.....	4-4
4.1.2	DNS Server Types	4-4
✓	Syllabus Topic : The DNS Lookup Process	4-5
4.1.3	The DNS Lookup Process.....	4-5
✓	Syllabus Topic : DNS Zone Types	4-5
4.1.4	DNS Zone Types.....	4-5
✓	Syllabus Topic : Setting up a DNS Server	4-6
4.1.5	Setting up a DNS Server	4-6
✓	Syllabus Topic : Setting up a Cache-Only Name Server	4-6
4.1.6	Setting up a Cache-Only Name Server	4-6
✓	Syllabus Topic : Setting up a Primary Name Server.....	4-7
4.1.7	Setting up a Primary Name Server.....	4-7

✓	Syllabus Topic : Setting up a Secondary Name Server	4-8
4.1.8	Setting up a Secondary Name Server.....	4-8
✓	Syllabus Topic : Understanding DHCP	4-8
4.1.9	Understanding DHCP	4-8
✓	Syllabus Topic : Setting Up a DHCP Server	4-9
4.1.10	Setting Up a DHCP Server	4-9
4.2	Setting up a Mail Server	4-11
✓	Syllabus Topic : Using the Message Transfer Agent	4-11
4.2.1	Using the Message Transfer Agent.....	4-11
✓	Syllabus Topic : Understanding the Mail Delivery Agent	4-12
4.2.2	Understanding the Mail Delivery Agent.....	4-12
✓	Syllabus Topic : Understanding the Mail User Agent	4-13
4.2.3	Understanding the Mail User Agent	4-13
✓	Syllabus Topic : Setting up Postfix as an SMTP Server	4-13
4.3	Setting up Postfix as an SMTP Server.....	4-13
✓	Syllabus Topic : Working with Mutt	4-14
4.4	Working with Mutt	4-14
4.5	Basic Configuration	4-15
✓	Syllabus Topic : Internet Configuration	4-15
4.6	Internet Configuration.....	4-15
✓	Syllabus Topic : Configuring Dovecot for POP and IMAP	4-17
4.7	Configuring Dovecot for POP and IMAP.....	4-17
✓	Syllabus Topic : Configuring the Apache Web Server	4-18
4.8	Configuring the Apache Web Server.....	4-18
✓	Syllabus Topic : Creating a Basic Website	4-19
4.9	Creating a Basic Website	4-19
✓	Syllabus Topic : Understanding the Apache Configuration Files	4-19
4.10	Understanding the Apache Configuration Files.....	4-19
4.10.1	Generic Parameters	4-20
4.10.2	Apache Mode	4-20
4.10.3	Modules.....	4-22
4.10.4	Setting up Directory Options	4-22
4.10.5	Handling Basic Directory Restrictions	4-23

✓	Syllabus Topic : Apache Log Files	4-23
4.11	Apache Log Files	4-23
✓	Syllabus Topic : Working with Virtual Hosts	4-23
4.12	Working with Virtual Hosts	4-23
✓	Syllabus Topic : Securing the Web Server with TLS Certificates	4-24
4.13	Securing the Web Server with TLS Certificates.....	4-24
✓	Syllabus Topic : Configuring Authentication	4-25
4.14	Configuring Authentication	4-25
✓	Syllabus Topic : Setting Up Authentication with .htpasswd	4-25
4.15	Setting Up Authentication with .htpasswd.....	4-25
✓	Syllabus Topic : Configuring LDAP Authentication	4-26
4.16	Configuring LDAP Authentication.....	4-26
✓	Syllabus Topic : Setting Up MySQL	4-27
4.17	Setting Up MySQL	4-27

UNIT - V

➤ Chapter 5 : Introduction to Bash Shell Scripting 5-1 to 5-46

✓	Syllabus Topic : Introduction	5-1
5.1	Introduction.....	5-1
5.1.1	Elements of a Good Shell Script.....	5-2
✓	Syllabus Topic : Executing the Script	5-3
5.1.2	Executing the Script.....	5-3
✓	Syllabus Topic : Working with Variables and Input	5-4
5.1.3	Working with Variables and Input.....	5-4
✓	Syllabus Topic : Understanding Variables	5-5
5.1.3.1	Understanding Variables.....	5-5
✓	Syllabus Topic : Variables, Sub-shells, and Sourcing	5-5
5.1.3.2	Variables, Sub-shells, and Sourcing	5-5
✓	Syllabus Topic : Working with Script Arguments	5-6
5.1.4	Working with Script Arguments.....	5-6

5.1.4.1	Using Script Arguments.....	5-6
5.1.4.2	Counting the Number of Script Arguments	5-6
5.1.4.3	Referring to All Script Arguments.....	5-6
✓	Syllabus Topic : Asking for Input	5-7
5.1.5	Asking for Input.....	5-7
✓	Syllabus Topic : Using Command Substitution	5-8
5.1.6	Using Command Substitution.....	5-8
✓	Syllabus Topic : Substitution Operators	5-9
5.1.7	Substitution Operators	5-9
✓	Syllabus Topic : Changing Variable Content with Pattern Matching	5-9
5.1.8	Changing Variable Content with Pattern Matching.....	5-9
✓	Syllabus Topic : Performing Calculations	5-10
5.2	Performing Calculations	5-10
✓	Syllabus Topic : Using Control Structures	5-12
5.2.1	Using Control Structures.....	5-12
✓	Syllabus Topic : Using if...then...else	5-14
5.2.2	Using if...then...else	5-14
✓	Syllabus Topic : Using Case	5-16
5.2.3	Using Case	5-16
✓	Syllabus Topic : Using while	5-17
5.2.4	Using while	5-17
✓	Syllabus Topic : Using until	5-18
5.2.5	Using until.....	5-18
✓	Syllabus Topic : Using for	5-19
5.2.6	Using for	5-19
✓	Syllabus Topic : Configuring Booting with GRUB	5-20
5.2.7	Configuring Booting with GRUB.....	5-20
5.2.7.1	Understanding the grub.conf Configuration File.....	5-20
5.2.7.2	Changing Boot Options.....	5-22
5.2.7.3	Using the GRUB Command Line.....	5-23

5.2.7.4	Reinstalling GRUB	5-24
5.3	High-availability Clustering.....	5-24
✓	Syllabus Topic : Understanding High-Availability Clustering	5-24
5.3.1	Understanding High-Availability Clustering.....	5-24
✓	Syllabus Topic : The Workings of High Availability	5-25
5.3.2	The Workings of High Availability	5-25
✓	Syllabus Topic : High-Availability Requirements	5-25
5.3.3	High-Availability Requirements.....	5-25
5.3.3.1	Multiple Nodes.....	5-26
5.3.3.2	Fence Devices	5-26
5.3.3.3	Ethernet Bonding	5-27
5.3.3.4	Shared Storage	5-27
✓	Syllabus Topic : Red Hat High-Availability Add-on Software Components	5-29
5.3.4	Red Hat High-Availability Add-on Software Components.....	5-29
✓	Syllabus Topic : Configuring Cluster-Based Services	5-30
5.3.5	Configuring Cluster-Based Services.....	5-30
✓	Syllabus Topic : Setting up Bonding.....	5-30
5.3.5.1	Setting up Bonding	5-30
✓	Syllabus Topic : Setting up Shared Storage	5-30
5.3.5.2	Setting up Shared Storage.....	5-30
✓	Syllabus Topic : Installing the Red Hat High Availability Add-on	5-33
5.4	Installing the Red Hat High Availability Add-on.....	5-33
✓	Syllabus Topic : Building the Initial State of the Cluster.....	5-33
5.4.1	Building the Initial State of the Cluster	5-33
✓	Syllabus Topic : Configuring Additional Cluster Properties	5-34
5.4.2	Configuring Additional Cluster Properties	5-34
✓	Syllabus Topic : Configuring a Quorum Disk.....	5-35
5.4.3	Configuring a Quorum Disk	5-35
5.4.4	Setting up Fencing	5-36
✓	Syllabus Topic : Creating Resources and Services	5-36
5.4.5	Creating Resources and Services.....	5-36

✓	Syllabus Topic : Troubleshooting a Non-operational Cluster	5-38
5.4.6	Troubleshooting a Non-operational Cluster	5-38
✓	Syllabus Topic : Configuring GFS2 File Systems	5-39
5.4.7	Configuring GFS2 File Systems	5-39
5.5	Setting up an Installation Server	5-39
✓	Syllabus Topic : Configuring a Network as an Installation Server	5-40
5.5.1	Configuring a Network as an Installation Server	5-40
✓	Syllabus Topic : Setting up a TFTP (Trivial FTP) and DHCP Server for PXE (Preboot Execution Environment) Boot	5-40
5.5.2	Setting up a TFTP (Trivial FTP) and DHCP Server for PXE (Preboot Execution Environment) Boot.....	5-40
✓	Syllabus Topic : Installing the TFTP Server	5-40
5.5.3	Installing the TFTP Server.....	5-40
✓	Syllabus Topic : Configuring DHCP for PXE Boot	5-41
5.5.4	Configuring DHCP for PXE boot	5-41
✓	Syllabus Topic : Creating the TFTP PXE Server Content	5-41
5.5.5	Creating the TFTP PXE Server Content	5-41
✓	Syllabus Topic : Creating a Kickstart File	5-42
5.5.6	Creating a Kickstart File	5-42
✓	Syllabus Topic : Using a Kickstart File to Perform an Automated Installation	5-43
5.5.6.1	Using a Kickstart File to Perform an Automated Installation	5-43
✓	Syllabus Topic : Modifying the Kickstart File with System-config-kickstart	5-43
5.5.6.2	Modifying the Kickstart File with System-config-kickstart	5-43
✓	Syllabus Topic : Making Manual Modification to Kickstart File	5-44
5.5.6.3	Making Manual Modification to Kickstart File	5-44
	• Model Question Paper	M-1 to M-2
	• Lab Manual	L-1 to L-130
	• Appendix-A : Solved University Question Papers of Oct. 2018 and May 2019	A-1 to A-12
	• University Questions Papers	Q-1 to Q-4

Lab Index

Statement	Name of the Program	Page Nos.
	L.1 Installation of RHEL 6.X	L-1 to L-18
Program 1	Graphical User Interface and Command Line Interface and Processes.	
(a)	Exploring the Graphical Desktop	
(b)	The Command Line Interface	
(c)	Managing Processes	
	L.2 Storage Devices and Links, Backup and Repository	L-21 to L-35
Program 2	Storage Devices and Links, Backup and Repository	
(a)	Working with Storage Devices and Links	
(b)	Making a Backup	
(c)	Creating a Repository	
	L.3 Working with Rpm's Storage and Networking	L-35 to L-49
Program 3	Working with RPMs Storage and Networking	
(a)	Using Query Options	
(b)	Extracting Files From RPMs	
(c)	Configuring and Managing Storage	
(d)	Connecting to the Network	
	L.4 Working with Users, Groups, and Permissions	L-49 to L-56

Statement	Name of the Program	Page Nos.
